CARBON FIBRE BASIN SET

Going in to your bathroom in style!

Our carbon fibre basin set is the newest technology available for its high endurance, scratch and corrosion resistant as well as heat resistant. In addition to all of these amazing traits, not only is this product very light compared to aluminium cabinets. Carbon fibre cabinets are so strong that it is almost impervious to any hard contact / impact from any sharp objects.

For the top table basin, Valpra basin set provides top table quartz / sintered stone with its elegant and minimalist look. This quartz stone basin provides wide varieties of natural marble designs that ensure you going in the bathroom in style!

Light & Durable

Lighter than Aluminium but more durable than steel

Scratch Resistant

Carbon Fibre ensures high modulus fibre material to prevent scratches

Corrosion & Heat Resistant

Almost immune to any exposure to corrosion / acidic materials and high heat temperature

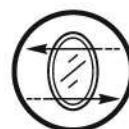

Hard Surface

Carbon Fibre Cabinet has a very strong and stiff surface encasing the product

Quartz Stone Basin

Sintered Stone Basin with customizable, unique and natural essence of marble designs

Versatile Mirror Movement

High quality mirror that can shift from left to right or to be opened sideways

V-7056
